

For Immediate Release

KIDS MOBILITY NETWORK SURPASSES \$500,000 OF COMMUNITY BENEFIT

Littleton, Colorado, November 24, 2008 - Kids Mobility Network, Inc. announced today that it has surpassed a key milestone in its growth and development. In October 2008 the organization surpassed the mark of \$500,000 of total community benefit provided by the organization.

Kids Mobility Network is a 501(c)3 non-profit organization that provides durable medical equipment (DME) such as wheelchairs, walkers, standers and other medical equipment to children with disabilities. With new strategic partners and enhanced capabilities, the organization is growing at a rapid pace and expanding its operations to service more children in 2009.

“The Kids Mobility Network team has worked hard to provide significant benefit to children with disabilities,” stated Christy Kopp, Executive Director of Kids Mobility Network. “Since our first equipment placement in the spring of 2006, we’ve provided over \$500,000 of DME to help children gain not only mobility, but most importantly independence. We’re very proud of that. We are now aggressively pursuing funding partners in the form of corporate partners as well as foundations to further advance our capabilities to serve more children in 2009.”

The organization invites families that have an immediate need for durable medical equipment to submit an application. Interested families should visit the organization’s website to download an application at <http://www.kidsmobility.org>.

About Kids Mobility Network

Kids Mobility Network, Inc., based in Denver, Colorado, is a 501(c)3 non-profit organization that is changing the lives of children with disabilities by providing durable medical equipment (DME) such as walkers and wheelchairs to children whose families are underinsured or uninsured.
